I BELIEVE IT YET.

I.

There's some useful information that I got
from mother dear,
One evening when I went my girl to see:
He told me I had better be tasteful in my
dress.

he told that Marks Jacobs made suits the handsomest;
That to his store was just the place to go,
That with his help I'd surely win the girl I loved best:
I believed it, for my mother told me so

CHORUS.

And always like a gentleman should go;
That for this service I could trust Marks
Jacobs all the while;
I believed it, for my mother told me so.

II.

The next morning at the rising of the sun,
And picked me out the finest that this artist
 had on hand,
And in just two days the suit complete
 was done.
Then I hid me to the mansion where lived
my Katie Brown.

She said I was the handsomest, the noblest
man in town;
I believed it, for my sweetheart told me so.

CHORUS.

She told me something better yet; she said
she would be mine.

That through this life with me she'd gladly go,
If I would wear Marks Jacobs' suits, so fitting,
neat and fine;
I believed it, for my Katie told me so.

NOTES ON NEWS OF THE DAY.

MIAMI UNIVERSITY conferred the degree of LL.D. upon President Harrison yesterday. The President is an alumnus of the institution.

PROF. E. B. ANDREWS of Cornell University has been elected President of Brown University at Providence, to succeed Dr. E. G. Robinson, resigned. Prof. Andrews is a graduate of Brown and has been an instructor there.

EX-SENATOR SIMON CAMERON was stricken with paralysis of the right arm and side yesterday, at his home in Donegal Springs, Pa. He celebrated his nineteenth birthday on the 8th of March last. Gen. Cameron is one of the three surviving members of Mr. Lincoln's Cabinet, Hugh McCulloch and J. P. Usher being the others.

WILLIAM CARREHER committed suicide in Philadelphia by shooting yesterday. He had served two terms in the Legislature, but was beaten for a third term, and this bad luck was aggravated by the refusal of the Excise Board to renew his license to sell liquor last spring. He was a Democratic statesman, without doubt, and had begun to despair for the future of his country.

THE Legislature of Connecticut passed another secret ballot bill yesterday and sent it to Gov. Bulkeley. It contains nearly all the essential features of the Australian plan, and will do away with much of the fraud that makes the vote in several Connecticut towns nearest to New York equal to one-half the population. The Governor will greatly improve his standing as a Republican by signing this bill.

JIM POOLE shot Tom Burns in New York a short time since, while trying to shoot Policeman Donovan. Yesterday he was convicted, and his sentence was to be pronounced to-day. Poole had been only a few weeks out of prison. Whatever his sentence may be, he will have three years added to it from his former sentence, which had been remitted to him for good behavior in prison. This is no forfeit for his immediate return to crime.

THE largeness of the vote in Rhode Island yesterday showed the interest of the people in the question. The vote, 38,302, was the largest ever cast in the state, with the exception of the last Presidential election, when it was 40,766. The suffrage is now as free in Rhode Island as in any other state of the Union, but the vote cast yesterday is only 90 larger than that cast for Governor in April, 1888, before the constitutional disqualification of foreign born citizens was repealed. That disqualification, like the Prohibition amendment, was practically a dead letter for years before it was abolished.

DEMOCRATIC newspapers are again crowded with dispatches from Burlington, giving the information that a strong movement is on foot among Vermont Republicans to retire Senator Edmunds when his term expires in 1891. This news is very faithfully sent out every six years. It is a little premature this time, as no Legislature is in existence, and no election takes place till September, 1890. But that Legislature will return Mr. Edmunds to Washington as surely as he is alive and willing to serve. He stands elected for life, like his faithful colleague, Morrill, who is now in his eightieth year.

THE Democratic National Committee mapped out another campaign of Free Trade by the election of Calvin S. Brice to the Chairmanship a few days ago. Why the Democratic party clings to this discarded political heresy will appear from a reading of the article from the Augusta Chronicle which we copy elsewhere. It was a cardinal principle of the Southern Confederacy, which may be likened to a stool upon the three legs of Secession, Slavery and Free Trade. The war cut away the first two legs and destroyed the stool itself, but the Democratic party still fondles the only remaining leg. But there is no occasion for the Free Trade leg without the other two, and there is no occasion for any of them without the Confederacy. The Chronicle rightly concludes that Free Trade is dead. The Democratic party only displays its long-known blindness in failing to discover the fact.

DEATH from apoplexy frequently comes as quickly as a lightning stroke. The country remembers vividly how William H. Vanderbilt died. When Charles S. Collins dropped over his desk in the Troy Times editorial room, his pencil was finishing a word, and that word was traced as firmly and accurately, says the Times, as any of its predecessors. There was not a moment's interval between life and that utter unconsciousness which was death, though the heart continued to flutter a few hours longer. Is not this the sort of death that a strong, useful man would willingly choose with which to crown a life of good work? Is it not better than to drift into long years of senile age, in which the memory of former usefulness is likely to be outlived? That man is happiest in his fame who knows no declining years.

CALVIN S. BRICE's son has been expelled from Phillips-Exeter Academy, N. H., for disobedience. Brice was a member of the class of '89, but found it necessary to obtain extra instructions from a tutor in Cambridge to enable him to enter Harvard this fall. But he passed his Sundays and holidays in Exeter, where he spent his liberal supply of cash in ways that demoralized the other students. He was consequently informed that he must cease visiting Exeter till the close of the term. He repeated last Saturday, and exhibited more boisterousness than usual. For this he was promptly expelled on Monday morning. This is the way in which tumultuousness is usually treated at Exeter. The son of Judge Peckham received his expulsion papers last year, and the act drew from his father several letters to the faculty in which he entirely abandoned his judicial frame of mind. Young Brice probably owes his misfortune to his father's recent elevation. The effect of such an incident upon the mind of a fresh young man frequently proves deleterious. Judge Peckham's letters last year indicated surprise that the son of so distinguished a man should be subjected to the ordinary discipline of the institution. The effect of tumultuousness is always worse when shared by the father.

RESURRECTING JOHNSTOWN CITY.

Two Thousand Men are Now at Work; 500 Strikers Discharged.

By Telegram to The Freeman.

JOHNSTOWN, Pa., June 21.—The weather here is remarkably fair and pleasant to-day, and work on the wreckage has been generally resumed. About 2,000 men are at work on the McKnight-Flann crowd, and about 500 who have been discharged are walking about the place seeking work from some of the contractors. The authorities have refused to transportation to the strikers who desire to leave here, and consequently but few will leave.

The Cambria Iron Company and the Gault Steel Company are to-day paying their men for the first two weeks of May. The Cambria Company's pay roll aggregates \$95,000 and the Gault Company's \$56,000. Of the 5,400 employees of the Cambria Company but 3,500 are at work, and of the 1,500 formerly employed at the Gault works but 900 are reported living.

A specie of lives has broken out among the people here. The ailment seems to be contagious. On account of the hot weather to-day the sunburned faces of the strikers and five bodies were picked up near the railroad bridge this morning, and up to noon 13 bodies had been recovered.

ABOUT SOCIALISTS IN SWITZERLAND.

What the Bundesrath Says in Answer to Inquiries by Nationalists.

By Cable to The Freeman.

BERNE, June 21.—The Bundesrath, in reply to inquiries made by the Nationalists, denies that there are any grounds for the complaint made by foreign powers that Socialists are allowed too much freedom in Switzerland. Switzerland will always fulfill her international obligations, but holds that the duty of the resolution of the Nationalists does not devolve upon Switzerland exclusively on account of her neutrality, but is incumbent upon every state. It says the negotiations between Switzerland and the powers will continue and gives assurances that the Bundesrath will guard the interests of the country, and will not consent to divide its authority over the residents of Switzerland with Germany.

Hippolyte is on Top in Hayti.

By Telegram to The Freeman.

NEW-YORK, June 21.—Advices from Hayti brought by the steamship Sagunaw, say that from June 9 to June 15, nine communes, composing 11 villages, have been successively occupied by Hippolyte's forces. Many of Legitime's Generals have deserted him. Legitime refuses to leave the country, although urged to do so by his partisans.

By Telegram to The Freeman.

DESTRUCTIVE STORMS IN THE WEST.

The Wind Blew at the Rate of Sixty Miles an Hour.

By Telegram to The Freeman.

STORM CITY, Ill., June 21.—This City was visited by a destructive storm of wind and rain yesterday. The wind blew at the rate of 60 miles an hour and the rain fell in torrents. A section of the viaduct of the new cable line, on Jackson-street, was washed out. The new pontoon bridge, on the river, was destroyed. The heavy wind, combined with rushing waters, snapped the cables holding two sections of the draws and the draws and the toll-house were carried out. Sixty boats were carried out and one broke apart. Huge piles of drift wood are stacked against the upstream side of the bridge. The damage will reach several thousand dollars. Reports from surrounding points show that the storm was general. At River View, Ark., several summer houses were blown into the river, but the occupants escaped. The residence of Coniffie Brothers, in the eastern part of the City, was struck by lightning, Frederick Coniffie being severely burned.

Whiskey's Fatal Work.

By Telegram to The Freeman.

WILMINGTON, Del., June 21.—James Cochran and Joseph Downey, both of Philadelphia, captain and deck-hand of the schooner Seaman's Bride, were drowned last night. The men were in the City taking on a cargo of ice and got under the influence of liquor. Downey fell overboard and an attempt was made to rescue him, but he was drowned. The Captain, who was in a drunken stupor, came from the cabin to ascertain the cause of the commotion and walked overboard and the crew were too drunk to render him assistance. Neither body has been recovered. The surviving members of the crew are locked up so they may get sober.

Probable Strike of Iron Workers.

By Telegram to The Freeman.

PITTSBURGH, Pa., June 21.—A strike or lockout seems inevitable at the great Homestead steel plant of Carnegie & Company. It is stated upon authority of the firm that no agreement could be reached with the iron workers' conference. The iron workers demand wages question, and that the men will quit work on June 30. After making necessary repairs, the management say new men will be secured and work resumed in all departments. The strike will involve 5,000 men.

General Simon Cameron's Condition.

By Telegram to The Freeman.

LANCASTER, Pa., June 21.—General Simon Cameron's condition to-day is reported as about the same with no change for the better. His right side is paralyzed. The General was in bed when the stroke came. He is conscious of his surroundings. At noon he was resting somewhat easier.

LATER.—A messenger from General Cameron informed that the General had no change in his condition and no hopes of his recovery.

A Supreme Court Decision.

By Telegram to The Freeman.

BOSTON, June 21.—In the action of Myra Beale, formerly wife of James H. Beale, to recover damages from Augustus Thompson for alienating the affections of plaintiff's husband by writing him a letter containing a libelous imputation on the latter, the Supreme Court has decided that the verdict of the Superior Court awarding plaintiff \$30,000 must stand.

Charge Against Irish Nationalists.

By Cable to The Freeman.

LONDON, June 21.—The Pall Mall Gazette asserts that Monsignor Persico, who made an investigation of Irish nationalists in the city of Rome, inserted in his report a statement that he feared the Irish Nationalists would kill him if he returned to Ireland, and declared he held proofs that that was their intention.

THE STOCK AND MONEY MARKET.

Financial Notes on Wall-Street To-day.

The Leading Money Market Quotations.

By Telegram to The Freeman.

NEW-YORK, June 21.—The heavy engagements of gold last evening had the effect of restricting dealings this morning, and the market during the first hour was unusually quiet. Prices were lower and the volume of sales was at declines of 4 to 1 per cent. The only exceptions being Oregon Transcontinental, which was up 1/2, and Rock Island, which was 1/2 higher. The list reacted from these, however, and there was generally a small advance in the early trading. Lackawanna was the special feature, and after opening off 1/2, it dropped to 1/4 and rallied to 1/2. The activity was confined to St. Paul, Lackawanna, Union Pacific, Reading, Atchafson and Sugar Trust. The latter sold ex-dividend and opening 1 1/2 rose 1 per cent. Union Pacific, late in the hour, developed considerable weakness and lost a fraction, while the remainder of the list continued quiet and firm.

THE POOR MAN'S SUGAR.

Most of the necessities of life are satisfactorily cheap, in spite of the Democratic assertion that "the tariff is a tax." A suit of good wool clothing for \$7 or \$8, good shoes for \$2 a pair, a hat for a dollar and shirts and all underwear cheaper than ever before, while wages keep up and employment is abundant, mark the present as the golden age for the people in general. The only exception to this very satisfactory condition is the cost of sugar. For months the price of this indispensable article of food has been going up. The dollar that paid for fifteen pounds last year now purchases only ten. Here is an advance of 40 per cent, and it makes a tax which the poor man and every man of small income feels severely.

The trouble at the bottom of this business is the great sugar trust. Last year the profits of this combination were \$14,000,000; up to June 31st of this year they amounted to \$26,200,000 more, or at the rate of \$13,000,000 a year. A trust that manages to divide to its members about a quarter of a million a year each is asking too much of the people. But this is not all the evil that has befallen the sugar trust. The trust has crushed out competition, closed numerous refineries, and thrown several thousand people out of employment.

The Republican party in the last Congress undertook to lower the duty on sugar, but were defeated at every attempt by the Democratic majority. The big duty protects a few planters in the Democratic state of Louisiana, though they do not and cannot produce one-hundredth part of the sugar consumed by the American people. The well understood purpose of our system of protection is to give American producers control of the home market. The duty on sugar is so large that it would exclude the last pound of foreign sugar from this country if American planters were able to supply the demand. But because it does not we are compelled to pay an enormous tax upon imported sugar.

These Louisiana Democrats may sell their crop at double price. The Republicans proposed to abolish the tax and pay instead a bounty upon every pound of American sugar raised, but even to this generous proposition, which would have amply protected the planter while it would have reduced the cost of the people's sugar to one-half the present price, the Democrats would not listen. They were willing to remove protection from every Northern product, though we can produce enough iron, salt and wool to supply the entire world, but upon this little product of a few plantations in a single Southern state they insisted on retaining the highest rate of protection placed on any commodity. The sugar trust is fattening on the protection accorded to sugar, which enables it to set its own prices upon the imported article. The people are of course helpless, and must submit to the extortion till Congress meets again. The Democratic party recognizes protection as an excellent thing for a Democratic community, but thinks it a great deal too good for Republicans.

WOMAN MURDER IN CONNECTICUT.

The business of woman murder in Connecticut was believed to have sustained a severe shock when Swift was hanged in Hartford a few weeks ago for the slaughter of his wife, after the Legislature had attempted to commute his sentence. But yesterday morning the bloody work was resumed. Alvin Park of Mystic, a cook on a fishing smack and a widower forty years old, was desperately in love with Edith Littlefield, a girl of fourteen years who resided with her parents at Goat Point, a hamlet a short distance west of Mystic. She failed to reciprocate his attentions, and last Sunday morning he got drunk and went to the girl's house, where he amused himself by smashing in the windows with a lead line and sinker and threatening her with violence if she did not return his love. Last Wednesday night the girl went to the circus with a younger and more favored suitor. Park was present and watched the girl and her escort through the evening, showing signs of jealousy and anger. Yesterday morning he went to the Littlefield house again, and in response to his knock Edith opened the door. He immediately raised a revolver and fired six shots at her, emptying the weapon. Four of the bullets took effect, one in the heart and three in the breast. She died in great agony soon after noon. Park was immediately arrested and lodged in the Mystic jail. The youth and innocence of the victim and the cold-blooded brutality of the crime caused great indignation, and the Sheriff found difficulty in protecting him from the crowd that gathered to lynch him. The jurors will undoubtedly do its appropriate work for him in due time.

PROHIBITION AGAIN BEATEN.

Prohibition received another blacking of the eyes in Rhode Island yesterday. The total vote cast on the re-adoption or repeal of the Prohibition amendment was 38,302. Two-fifths of these, or 15,321, would have sufficed to sustain the amendment, but it received only 9,853. To defeat it 22,982 votes were necessary; the opposition cast 28,449. Three years ago, when the amendment was adopted, the vote stood 15,113 to 9,230 in its favor. The excess then over the requisite majority was 487, a saving, it might be said, as by "the skin of the teeth." There has been something of a revolution in Rhode Island, one of the soberest, most conservative and most enlightened states of the Union, on the question of Prohibition. One of the votes cast against it was that of Gov. Ladd, elected to his office in April by a large Republican majority. His vote is almost a startling commentary upon the failure to enforce the law. The three-fifths of the people who voted the amendment into existence should have attended to its enforcement, but they did not. Hence the revolution.

tion in favor of less law and more obedience.

The "picnic" which the liquor trade has been enjoying in Rhode Island free of expense will soon come to an end. A stringent high license law will be enacted, and it will shut up one-half the saloons that have flourished under prohibition, and compel the remainder to pay a license fee so high that it will assist materially in lessening the taxes upon property, while it will make the liquor franchise so valuable that its owners will be very careful to avoid the risk of forfeiting it by illegal performances. The way is now clear for high license. With Massachusetts, New Hampshire, Michigan, Pennsylvania and Rhode Island on record in opposition to prohibition, the principle must be for a time abandoned by those who are looking for practical measures to reduce the evils of the liquor trade. Pennsylvania leads the high license movement by showing the most beneficial results that have followed temperance legislation, and the Pennsylvania law will serve as a model for other states.

The outlook is now favorable for high license in New York next winter. It is the only available means for checking the present rapid growth of the liquor trade and curbing the universal defiance of law that is the result of Gov. Hill's veto of every salutary measure. The political prohibitionists will try to hold together, but those sincere and practical temperance men who, like Gen. Fisk, are ready to enter into any alliance and to support any measure that promises the promotion of temperance, will unite with the Republican party for the election of a high license majority of two-thirds to the Legislature. This will at least overthrow Hill and the saloon element behind him. As this is the first essential step, and as nothing can be accomplished till it is taken, there ought to be no obstacle in the way of a solid union of all the temperance men of the state for this single purpose, a most important one but easy of accomplishment, when there is concert of action among those who understand the dangerous character of the man and the evil of his purposes.

"FREE TRADE IS DEAD!"

Obituary of Slavery, Secession and Free Trade.
(From the Augusta, Ga. Chronicle, Dec. 1861.)
When this government was formed 100 years ago, it was a free government, and it was threatened its national dissolution and industrial destruction.
1. Slavery.
2. Secession.
3. Free Trade.
The first two causes have fortunately disappeared. They threatened the life of the government, and the third is the only dangerous political heresy that now threatens the life of the government. In the four years of war between the states there were about 4,000,000 men engaged, one-fifth of whom were killed or maimed for life. The South lost in slaves property valued at \$2,000,000,000, and its other property as much more. The national debt was piled up from less than \$100,000,000 to billions. At the close of the fratricidal struggle the public debt of the nation was not far from \$3,000,000,000. The best blood of the country and its treasures were poured out to establish the Southern Confederacy and to maintain the Union. When General Lee checked his stultified sword at Appomattox and the survivors of a hundred battlefields returned to their ruined and desolate homes, the manhood of the South was worn out by sheer exhaustion. The South was conquered, but the story of her struggle for self-government will illumine the pages of history forever with a halo of glory. Secession and slavery died with the Confederacy. A condition and a theory coeval with the government disappeared.

GENERAL NEWS MATTER

BY CABLE, TELEGRAPH AND MAIL TO "THE FREEMAN."

A Revolutionary Manifesto from Serbia—Certain Foreign Miners Discharged—Leather Manufactured from Red Beechwood—Volapuk in the United States.

Professor Hartland, of the West Virginia University, is conducting two interesting experiments in vivisection. In one he made an incision into the stomach of a dog, in which he placed a fistula tube from the outside. When a vessel of milk is placed before the dog and the animal drinks, the fluid runs out through the tube as fast as it is lapped up, and the dog's thirst is not quenched. When the tube is stopped, so that the milk is retained in the stomach, the animal becomes satisfied, "showing that the seat of thirst is not in the throat, but is a demand of the entire system." The food may also be taken by the tube from the stomach at any time, and the process of digestion studied under the microscope. The other operation consists of the removal of a portion of another dog's skull and the substitution of a nicely fitting plate of glass. Through the window the professor successfully studied the action of the brain while the animal is awake.

Dr. George Thelus, of Vicenza, has a process for the manufacture of leather from red beechwood. The best wood for the purpose is taken from 50 to 60-year-old trees, cut in the spring, which must be worked up immediately, bark peeled off, steamed, treated with chemicals in a tank under pressure and exposed to several operations which the inventor does not mention, as he wants to have them patented. From the prepared wood strong and thin pieces are made by means of heavy pressure. The inventor states that the leather can be obtained which he claims is superior to animal leather in firmness and durability and can be worked up in the same way as animal leather, nailed and sewed.

The promoters of Volapuk in the United States have perfected the organization of a national society for the purpose of "superintending and furthering its diffusion and interests." The society consists of the national officers and also of a chief or president for each State, who will see to the formation of clubs, etc. Thus Volapuk can now be considered on an equal footing with other sciences in the United States, in that it has its national society, and we may hope to see it diffused and become widely known and used, as it deserves to be, on account of its object and international language, and the perfect manner in which it meets the requirements of the age.

A traveler just arrived in London from Damascus gives some details about the present condition and surroundings of Buckle's grave. Though it was left for so long after his death without a stone over to mark it, that it had become almost lost to the rank growth of thistles and coarse grass, the altar tomb of white marble and black basalt, that was at last erected is now enclosed in a high wall with an apollodoked gate.

A Cut in Lake Freight.
By Telegraph to The Freeman.
CHICAGO, June 21.—A paper here says in two marine sources nothing has occurred which has so much of the proverbial gloom over the Lake marine as the drop in Lake freight yesterday. Coming right after the partial collapse of coal freights there was good reason for the feeling of despondency everywhere apparent. It meant business at a figure without profit, and nobody could predict when matters would be better. The break did not come until the close of change. In the morning some 175,000 bushels of room was chartered at the old rates, and a quarter off. Charters were generally suppressed, but room for 500,000 bushels was taken at that figure. Even then a few boats went without loads.

There was a flash, and the two men fell to the floor dead. Within four feet of them a boy was milking a cow. The animal was killed, but the boy was unhurt.

ALONG THE HUDSON AND ISLAND.
Two convicts in the Sing Sing State Prison had a fight yesterday morning at breakfast time. Joseph Kiley, a six years' man, having only one month more to serve, had a grudge against Thomas Downey, and as they were returning from the meal Kiley caught up a vinegar bottle, and rushing from his place in the centre of the line of his company to the head of it, where Downey was, commenced to beat him upon the head with it. Keeper Bronson separated the men at once, and Kiley was placed in a dark cell. He will lose six months of his "good" time, which will be added to his one month, making seven months he will now have to serve instead of one.

IN AND ABOUT THIS CITY.

BITS OF NEWS, STORIES AND SOME CHAT AND GOSSIP.

The Delaware & Hudson Canal Company—
Saloon Keepers Who Allow Young Boys to Play Pool—A Street Nuisance—An Old Hand Leader—Fleeing Hotel Keepers.

Newburgh and Poughkeepsie folks—and may Providence care for their simple souls, for they easily become excited and are prone to make statements absurd and hyperbolic—are engaging in what they are pleased to call "hose carriage talk." One set of villagers claims that Phoenix Hose Company has a carriage handsomer than that of Wehrer Hose Company, of this City; and the other lot that Ringgold Hose Company of Newburgh, has a hose carriage that "the Wehrer carriage cannot excel." There are so many pretty hose carriages in this City that the *Freeman* dare not enter into the controversy, but it can safely say that the finest collection of parade hose carriages in the world can be found here. The *New-York Times* in describing the parade of the firemen at the late Centennial said Cornell Hose carriage was a "symphony in silver." If people of artistic tastes wish to see a handsome parade carriage on the Fourth of July at Hudson they must wait until the Wehrer rolls by.

Busy times prevail along the line of the Delaware & Hudson Canal and at the terminal in this City. It is pointed out that Delaware & Hudson stock, is quoted at 150, a rise in six months of more than \$30 per share. The stock of the Company has experienced most extraordinary fluctuations. It once sold at \$240 a share. This was in "Greenback time," which, in 1873, it sold for \$25 per share. In late years a new era of prosperity has dawned upon the Company, some of its at one time profitless lines having become sources of revenue, while others, which were for some years a drain upon the parental system, are now able to pay their own way.

Many men are employed rebuilding the mill house at South Rondout. When some old people look at the work as it is progressing, from the hills on this side of the Creek, they are reminded of a picture an amateur here once sketched in crayon on a blackboard of the "rebuilding of King Solomon's temple." The new building will be large, and will be a prominent feature in the landscape of the northern part of the town of Esopus.

This forenoon a man named Henry Frederick Lausinger, born in Switzerland, was arraigned before the Recorder charged with disorderly conduct. Lausinger, who is a cripple, acted as though he was slightly deranged. He said he wanted to go to work on a farm and the Recorder let him go.

The notable and handsome old grape vine which climbs up a large trellis on the south-east side of the brick building at Decker's Corners is loaded with young fruit. The vine is a retreat for birds and they make a great chattering in the early morning hours.

An easel portrait of Augusta Ohlstrom, Swedish soprano singer, is published in the *Musical Courier*, of New York City. The *Courier* contains a sketch of her life, and mentions the fact of her having made her American debut at the musical festival in this City.

Children who take delight in roaming over the common soil of Montpelier Cemetery are exorcised because two "nasty" tramps have established headquarters there. The wayfarers should be arrested and shipped to the Albany Penitentiary.

In the *Freeman's* telegraph columns today there is printed a paragraph which sets forth that goats are being killed for their skins and tallow in the Island of Guadalupe. There are goats here that could be skinned "if it comes to the worst."

A young man in near by localities is playing the "detective" game. He struts and leads the proprietors to believe he is investigating some crime, and after a few days runs away. He is working his way toward this City.

Water-pipes have been carted to that portion of Chestnut-street south-west of Ulster Academy. When the street shall have been graded, "top-dressed," curbed and guttered and the water-pipes laid, property there will increase in value.

The case of the Board of Supervisors of Suffolk County against this City for a bill of about \$1,700 for the support of an insane patient named John Gill was argued in the Court of Appeals at Albany on Tuesday.

Invitations have been issued for the marriage of Miss Julia M. Chipp, daughter of J. Mayo Chipp, of this City, and William Lounsbury, of Stone Ridge, at the Fair-Street Reformed Church here on Wednesday.

One of the oldest hand leaders in this State is George Goeller, of this City, the leader of Goeller's Band. He is 78 years old. When on the march the old musician seems never to grow weary.

Handsome vehicles of various kinds seen among the freights of the "City of Kingston" and James W. Baldwin give evidence that the summer boarding season in the Catskills has commenced.

There was another beautiful sunset last evening. One of the best localities to witness a sunset among the Catskills is on the high ground in the rear of the public school at Wiltwyck.

A benedict gave this bit of advice to young married people the other night: "Pay out bills for household expenses cash down if you possibly can do so at least once a week."

It has been noticed that a fire-cracker exploded under a Delaware & Hudson Canal mule or a Ponckhockie goat has no effect on those gentle and affectionate animals.

The thick woods on the Sleightburg shore and the rocky bluffs near the West Shore Railroad bridge form a portion of the Rondout Creek a romantic appearance.

The Sawkill water has been unfit for use for several days. It is presumed that the muddy condition of the water is caused by the laying of new pipes.

The nuisance of burning paper and paste-board boxes on streets is a reprehensible one. Bonfires frighten horses and give streets a dirty appearance.

The demented woman called "Little Fraud," who some time ago squatted on a lot on Union-avenue, has been compelled to move.

The Rev. Mr. Sherwood, of Syracuse, N. Y., will preach in the Wurts Street Baptist Church on Sunday morning and evening.

A picture of the scholars who attend the Spring-Street Lutheran Day School was taken yesterday.

There are saloon keepers here who allow boys under 17 years of age to play pool in their places.

The man who prophesied a dry summer is not so multitudinous as he was, so to speak.

It is said that a "ghost" haunts one of the larger beer cellars under Holmes-street.

The little son of Matthew Westbrook fell up-town yesterday and broke his arm.

Dr. C. Keefe has returned to town from an extended trip in the West.

To-morrow will be pay-day on brickyards in this City and vicinity.

Huckleberries were sold for 13 cents per quart in this City today.

Today is the longest day of the year, as relates to sunlight.

PROCEEDINGS IN THE CIRCUIT COURT.

A Case Referred—The Cullen Suit for Damages—Short Cause Calendar.

The following business has been transacted in the Circuit Court here:

William H. Whitaker against Lachlan McLean, et al., referred to John J. Linson. The case of Stella Cullen against Frederick O. Norton was continued to-day. At the close of the testimony for the plaintiff, the defendant moved for a non-suit on the ground there was not sufficient evidence to go to the jury, and that there was not evidence to sustain a verdict upon the question of negligence of the defendant in this case. The motion was argued at length and denied. The trial was continued.

The short cause calendar was taken up. No. 211, Ulster County Savings Institution vs. J. H. Schreiber, et al., was tried. This was an action on foreclosure of mortgage of \$10,000 on the store building of defendant. No appearance on the part of defense. Judgment for plaintiff for \$10,945. No. 212, same vs. same. This was an action on foreclosure of mortgage of \$1,000 on house and lot of defendant on Hasbrouck-avenue. No defense. Judgment for full amount claimed with interest. No. 206, Mahlan Houghtland vs. Hurler Stone Company, over the term. No. 218, William P. Cole vs. A. P. Winchell, put down for Saturday.

In the report of the case of Bruyn vs. Russell, published in *THE FREEMAN* of last evening, it should have been stated that John J. Linson was one of the counsel for the defendant.

ULSTER COUNTY COURT.

County Court and Court of Sessions will be opened tomorrow. Several criminal cases will be moved for trial.

CONCERNING SPOTS ON THE SUN.

Solar Disturbances, Terrestrial Magnetism and the Weather—Interesting Comment.

It was noted in these columns last evening that a large sun spot was seen yesterday by C. P. Carter and others in this City on Thursday afternoon. The *New-York Sun* says:

A huge sun spot, comparable in magnitude with some of the great spots seen five or six years ago, is now visible on the solar disk. A good eye should be able to see it with the aid of a smoked glass. It is fully three diameters of the earth across, and some of the rays of the sun are seen to be deflected by the magnetic field of the sun. The sun spot is a mass of incandescent gas, and is a source of great heat. It is a source of great light, and is a source of great power. It is a source of great life, and is a source of great joy. IN AND ABOUT THIS CITY.

BITS OF NEWS, STORIES AND SOME CHAT AND GOSSIP.

The Delaware & Hudson Canal Company—Saloon Keepers Who Allow Young Boys to Play Pool—A Street Nuisance—An Old Band Leader—Fleeing Hotel Keepers.

Newburgh and Poughkeepsie folks—and may Providence care for their simple souls, for they easily become excited and are prone to make statements absurd and hyperbolic—are engaging in what they are pleased to call "horse carriage talk." One set of villagers claims that Phoenix Horse Company has a carriage handsomer than that of Weber Horse Company, of this city; and the other lot that Ringgold Horse Company of Newburgh has a horse carriage that "the Weber carriage cannot excel." There are so many pretty horse carriages in this city that THE FREEMAN dare not enter into the controversy, but it can safely say that the finest collection of parade horse carriages in the world can be found here. The *New-York Times* in describing the parade of the firemen at the late Centennial said Cornell's horse carriage was a "symphony in silver." If people of artistic tastes wish to see a handsome parade carriage on the Fourth of July at Hudson they must wait until the Weber rolls by.

Busy times prevail along the line of the Delaware & Hudson Canal and at the terminal in this city. It is pointed out that Delaware & Hudson stock, is quoted at 150, a rise in six months of more than \$30 per share. The stock of the Company has experienced most extraordinary fluctuations. It once sold at \$240 a share. This was in "Greenback time," since which, in 1873, it sold for \$25 per share. In late years a new era of prosperity has dawned upon the Company, some of its old time profits have been having become sources of revenue, while others, which were for some years a drain upon the parental system, are now able to pay their own way.

Many men are employed rebuilding the malt house at South Rondout. When some old people look at the work as it is progressing, from the hills on this side of the Creek, they are reminded of a picture and amateur here once sketched in crayon on a blackboard of the "rebuilding of King Solomon's temple." The new building will be large, and will be a prominent feature in the landscape of the northern part of the town of Esopus.

This forenoon a man named Henry Frederick Lautsinger, born in Switzerland, was arraigned before the Recorder charged with disorderly conduct. Lautsinger, who is a cripple, acted as though he were slightly deranged. He said he wanted to go to work on a farm and the Recorder let him go.

The notable and handsome old grape vine which climbs up a large trellis on the south-east side of the brick building at Derrebacker's Corners is loaded with young fruit. The vine is a retreat for birds and they make a great chattering in the early morning hours.

An angel portrait of Augusta Ohlstrom, Swedish soprano singer, is published in the *Musical Courier*, of New York City. The *Courier* contains a sketch of her life, and mentions the fact of her having made her American debut at the musical festival in this city.

Children who take delight in roaming over the common south of Montrose Cemetery are exorcised because two "nasty" tramps have established headquarters there. The wayfarers should be arrested and shipped to the Albany Penitentiary.

In THE FREEMAN'S telegraph columns to-day there is printed a paragraph which sets forth that goats are being killed for their skins and tallow in the Island of Guadalupe. There are goats here that could be spared "if it comes to the worst."

A young man in near-by localities is playing the "detective dodge." He stops at hotels and leads the proprietors to believe he is investigating some crime, and after a few days runs away. He is working his way toward this city.

Water-pipes have been cut to that portion of Chestnut-street south-west of Union Academy. When the street shall have been graded, top-dressed, curbed and guttered and the water-pipes laid, property there will increase in value.

The case of the Board of Supervisors of Suffolk County against this City for a bill of about \$1,700 for the support of an insane patient named John Gill was argued in the Court of Appeals at Albany on Tuesday.

One of the oldest band leaders in this State is George Goeller, of this city, the leader of Goeller's Band. He is 78 years old. When on the march the old musician seems never to grow weary.

Handsome vehicles of various kinds seen among the freights of the "City of Kingston" and James W. Baldwin give evidence that the summer boarding season in the Catskills has commenced.

There was another beautiful sunset last evening. One of the best localities to witness a sunset among the Catskills is on the high ground in the rear of the public school at Wilkys.

PROCEEDINGS IN THE CIRCUIT COURT.

A Case Referred—The Cullen Suit for Damages—Short Case Calendar.

The following business has been transacted in the Circuit Court here:

William H. Whitaker against Lachlan McLean, et al., referred to John J. Linson. The case of Statia Cullen against Frederick O. Norton was continued to-day. At the close of the testimony for the plaintiff, the defendant moved for a non-suit on the ground there was not sufficient evidence to go to the jury, and that there was not evidence to sustain a verdict upon the question of negligence of the defendant in this case. The motion was argued at length and denied. The trial was continued.

The short case calendar was taken up. No. 211, Ulster County Savings Institution vs. J. H. Schreiber et al., was tried. This was an action on foreclosure of mortgage of \$10,000 on the store building of defendant. No appearance on the part of defense. Judgment for plaintiff for \$10,000, same vs. same. This was an action of foreclosure of mortgage of \$1,000 on house and lot of defendant on Hasbrouck-avenue. No defense. Judgment for full amount claimed with interest. P. 206, Mahlan Houghland vs. Hurley Station Company, over the term. No. 216, William P. Cole vs. A. P. Winchell, put down for Saturday.

In the report of the case of Bruyn vs. Russell, published in THE FREEMAN of last evening, it should have been stated that John J. Linson was one of the counsel for the defendant.

ULSTER COUNTY COURT.

County Court and Court of Sessions will be continued until several criminal cases will be moved for trial.

CONCERNING SPOTS ON THE SUN.

Solar Disturbances, Terrestrial Magnetism and the Weather—Interesting Comment.

It was noted in these columns last evening that a large sun spot was seen yesterday by C. P. Carter and others in this City on Thursday afternoon. The *New-York Sun* says:

A huge sun spot, comparable in magnitude with some of the great spots seen five or six years ago, is now visible on the solar disk. A good eye should be able to see it with the aid of a smoked glass. It is fully three diameters of the earth across, and somewhat irregular in outline. Along the edges of the dark central chasm the familiar tongue-shaped projections of photospheric flame can be seen. The whole surface of the spot is so much affected by the effect of the solar globe, reaching a maximum once in every 11 years, is about to manifest itself in a more pronounced way of comparative repose. It will be interesting to notice how much information we shall be able to gather during the coming summer, in respect to the question of the connection between the sun spots and the weather. The theory that there is a most intimate relation of that kind has received enthusiastic support in some quarters since the Sun called attention to it, and 10 years ago, to the ground upon which it is based. But the authorities in astronomy and meteorology have not yet been able to prove, except so far as the undoubted connection between solar disturbances and terrestrial magnetism is concerned.

LIVES SOMEWHERE ELSE, EVIDENTLY.

One Joseph Klein Arrested in New-York City Who Says He Lives Here.

A dispatch to THE FREEMAN from New-York City to-day stated: "Joseph Klein, of Rondout, N. Y., was arrested and held for trial to-day on a charge of stealing \$10 worth of trinkets from an auction store on Broadway."

[The Joseph Klein mentioned is not the Joseph Klein who keeps a saloon on Union-avenue. He is here in town. The City directory only gives up "Joseph Klein."]

That Steam Roller of "Ours."

When the steam roller was first rolled out on the streets here the boomers said the main trouble was "the inspirators didn't work." Inspiration was then given the machine. Now it seems an "injection" is necessary. Engineer Caplis says the "injector fails to work smoothly." Then there has been some trouble about the boiler leaking, but the boiler has been caulked, and the water-boiling portion of the machine is pronounced O. K. The machine is now lying on Fair-street, and a machine-shop and foundry will probably be built around it to save the trouble and expense of getting it to one of the shops. To-day the agent of the company that built the roller says he found grease and soda in the boiler. He alleges that the boiler has "been tampered with." He says he will show his "find" to the Common Council this evening.

The Prospective First Ward Sewers.

Chats With Men Who Fish in Rondout Creek.

"Fair luck" is reported by dock fishermen here. Scale fish have been so numerous that one man has been known to cut off his fish line just above the water to get rid of taking off a slimy eel. He said to-day: "The darn things, they swallow the hook so far down in their stomachs I have not the patience to cut it out, so I cut the line and let them attempt to digest the hook."

Ruin on Union-Avenue.

Mud has been scraped from that portion of Albany-avenue lying between Clinton and Union-avenues. There are deep ruts nearly the entire length of the street that are due to the fact that heavy loads of stone are drawn in wagons having narrow tires. Yesterday a stone was drawn down Union-avenue of such size and weight that eight horses were required.

CHRISTIAN WOMEN'S WORK.

THE ANNUAL CONVENTION OF THE W. C. T. U. OF ULSTER CO.

Forty-six Delegates and Many Visitors Present at the Sessions Held in Shokan on Tuesday and Wednesday—Most of the Topics Discussed Enumerated.

The annual convention of the Ulster County Women's Christian Temperance Union was held in the Reformed Church, Shokan, on Tuesday and Wednesday. There were 46 delegates present. The attendance of visitors was large. The ladies of the Reformed Church had made every arrangement for the comfort and pleasure of the delegates.

Mrs. Emilie Underhill Burgess, of Highland, the President of the Union, was in the chair. The first session was opened at 10 o'clock on Tuesday forenoon with a devotional meeting, led by Mrs. G. O. House, of Shokan. Mrs. D. L. Matthews, of Shokan, delivered an Address of Welcome, which was responded to by Mrs. M. A. Haddock, of Dry Brook, A. "Mothers' Conference," led by Mrs. Wakelof, of Kingston, and a noon-tide prayer, by Mrs. DuBois LeFevre, of Gardiner, completed the morning's work.

There was a large attendance at the church on Tuesday afternoon. The devotional meeting was led by Mrs. M. A. Haddock, of Milton. Mrs. Edwin Dumont, of Shokan, read an essay on "Social Purity," and Miss Maynard, of Highland, sang a solo. A "Question Box," conducted by Mrs. S. Juddkins, of New-Paltz, was followed by a discussion. The most interesting feature of the afternoon was a "Children's Meeting," addressed by Mrs. Ella A. Boole, of Station Island, Corresponding Secretary of the State Women's Christian Temperance Union. The evening session was opened by the Rev. J. Johnson, Pastor of the Baptist Church, of Shokan, reading a scriptural lesson. Mrs. Ella A. Boole followed with an interesting lecture on the topic of "Woman's Mission, God's Commission." Mrs. Boole showed clearly that it was the duty of every Christian woman to lend her aid in the crusade on the evil of intemperance. She said she hoped the time would soon come when every saloon door in the land would be closed forever.

The pleasant weather of Wednesday was hailed with delight by the delegates. The session was opened by a prayer service, led by Mrs. Elizabeth Lockwood, of Marlborough. The Committee on Resolutions tendered a vote of thanks to the railroad companies "which so kindly carried the delegates to a Convention free of charge," and offered a resolution of sympathy to the members. A resolution of sympathy to the members of the Union who have recently lost friends by death was passed. A resolution, deploring the recent defeat of Prohibition in Pennsylvania, was sent to Mrs. Swift, President of the Women's Temperance Union of that State.

In her report of "Sunday School Work," Mrs. C. H. Ganse, of Highland, County Superintendent, made the statement that Ulster County is the banner county in the State in Sunday School Temperance work. After a noon meal, the delegates, led by Mrs. J. Johnson, of Shokan, proceeded to the hotel, of Ellenville, the Convention adjourned for dinner. On reassembling Mrs. Millsbaugh, of Walkkill, led a devotional meeting. The closing prayer of the Convention was made by the President of the Union.

Before leaving the Church the delegates, in resolutions to be placed on the minutes of the Union, expressed their thanks to the ladies of Shokan.

A meeting has been called at W. B. Terwilliger's place, on The Strand, Rondout, on Wednesday evening, June 26, to organize a Building Loan Association, similar to those now in successful operation at Port-Jervis, Newburgh, and Poughkeepsie. A number of citizens have signified their willingness to enter into such an organization. The plan proposed is the Philadelphia system, with par shares of \$200, payable \$1 per month. Such an organization here will do much toward the building of new residences in this town, and will lead to much that will be to the best interests of the City.

At the annual meeting of the Wurts-Street Baptist Sunday School last evening, the following officers were elected:

Andrew S. Barnes, Superintendent; G. M. Decker, Assistant Superintendent; Mrs. George Cuykendall, Lady Assistant Superintendent; Ralph Terwilliger, Secretary; Willard VanKeuren, Assistant Secretary; Frederick Cuykendall, Treasurer; Luther S. A Large Dam in Sullivan County.

The *Republican-Watchman* of Monticello says that the dam at the Yankee Pond, which has caused some apprehension since the Johnstown disaster, is 1,600 feet in length and 22 feet high. Its width on the top is 13 feet and at the base double that width. One thousand, two hundred acres of land are covered by the waters of the pond. It is seven miles in length. Should this dam give way the result would be disastrous. The Delaware & Hudson Canal Company employ two watchmen to look out for breaks in the dam.

There are Too Many Shade Trees in this City.

[From the Saugerties Telegraph.]

Too much shade about a dwelling house not only causes the woodwork of the building to decay, but is very injurious to the health among the occupants. Trees should be kept well trimmed.
